About Financial Arrangements and Dental Insurance

We must emphasize that as dental care providers, our relationship is with you, not your insurance company. While the filing of insurance claims is a courtesy that we extend to our patients, all charges are your responsibility. Delay or failure of an insurance company to pay all or part of a claim is a matter that should be dealt with by the patient directly with the insurance company. The fees we charge for services rendered to those who are insured are our usual and customary fees charged to all patients for similar services. Your policy may base its allowances on a fixed fee schedule, which may or may not coincide with our usual fees. You should be aware that different insurance companies vary greatly in the type of coverage available. Unpaid claims by more than 60 days will then become due by the patient. The 60 days starts from the first day the charges were acquired, whether or not insurance has been filed. There is a \$25.00 service charge for return checks and accounts with past due balances over 30 days. I have read and agree with the above statement.

PATIENT FINANCIAL RESPONSIBILITY

At Dr. Deborah Gennero's office we will gladly process your insurance claims. Our responsibility is to provide you with the treatment that best meets your needs. We do not match your care to insurance plan limitations. Many routine and necessary dental services are *not covered* even though you may still need those services.

We know that insurance guidelines can be difficult to understand at times. Fortunately with the information provided to us by you and your insurance company we are able to get a general breakdown of benefits. Some insurance companies will pay a percentage of usual and customary fees, which are an average fee for services in our area, however many insurance companies base their payments on their own "fee schedules", which is the maximum fee they will pay on each service. Fee schedule policies often pay a bit lower than companies paying off of usual and customary.

Dr. Gennero is NOT an in network doctor. You can use your PPO insurance at our office and our fees fall right into the usual and customary fees for our area but we are considered **OUT OF NETWORK**. Many insurance carriers accept 100% of our fees and then pay accordingly based on the category your particular service is covered under. Your insurance is a contract between you and your insurance company; therefore, all charges are your responsibility. We will ask that you pay your estimated portion at your visit.

With some policies, the insurance company will send their payment directly to the patient. In those cases, we ask that you pay the full amount at the time of service, and you will be reimbursed by your insurance company.

I understand that Dr. Gennero is not a network provider with my insurance company and acknowledge that I am financially responsible for all charges incurred, regardless of insurance coverage.
